## The emergency contact number required in Global GHS SDS (August 26, 2020)

**Q1:** What will be the emergency contact details required for India?

**A1:** Currently there is no specific requirement of emergency contact in India as the local GHS standards have not been implemented in India.

**Q2:** On the UFI label requirements is there a specific font size and placement requirement?

**A2:** For UFI, the UFI code itself (wherever it is used) must be preceded by the acronym "UFI:" in capital letters and must be clearly visible, legible, and indelibly marked. The acronym "UFI:" must always be used using the Latin alphabet, independent of the country, language and national alphabet(s) and must be followed by a colon. The monospaced font is strongly advised and the size of the font is recommended to be adapted to the font style to ensure that the UFI is legible for a person with average eyesight. The UFI code shall be included in your label.

**Q3:** How frequency the emergency number get updated?

**A3:** There is no such requirement. You shall update your SDS in time if the emergency number is changed.

**Q4:** If anti poison center notification should be done or not in China?

**A4:** Poison center notification is required in EU, but it's not required in China.

**Q5:** Should hazardous chemicals be registered or notified in China?

**A5:** Yes, hazardous registration shall be processed by local manufacturer or importer.

**Q6:** Emergency number on US GHS is required only on Hazardous chemicals for transportation?

**A6:** It shall be required on every SDS.

## Brief introduction of this series course

Due to the the outbreak of COVID-19 we have been unable to provide this training in the usual face to face manner. CIRS is proud to announce a series of training webinars on Global GHS regulations for our clients who may be:

- Product Safety and Regulatory Affairs Professionals
- Purchasing or Sourcing Manager - Chemicals
- EHS Professionals and Consultants
- MSDS Author and Hazard Communication Officer
- Product Registration Specialist
- Import/Export Manager - Chemicals

This series of training course is initiated and planned by David Wan, the Managing Director of CIRS Ireland. Information correctness and completeness is guided by Cloris Pan, the Leader of CIRS GHS service center. Webinars are provided by CIRS in conjunction with our partners in Japan (JEMAI) and Russia (ECOMOLE & Ecovostok).

This course includes webinars activities and advanced articles.
